## RECOMMENDATION LETTER

On behalf of the Lekhim Group of Pharmaceutical Companies, we would like to extend our sincere gratitude to the LA Law Firm (Legal Alliance) for their many years of fruitful cooperation and the successful handling of cases for our companies.

Our joint projects began over 10 years ago. Over the recent years, despite the challenges of the pandemic and the full-scale war, the lawyers of LA Law Firm have assisted us in executing complex projects related to the protection of our intellectual property portfolio, identifying and mitigating risks associated with the infringement of our company's intellectual property rights, and developing our marketing policy. LA Law Firm has also provided both verbal and written consultations on various aspects of our operations and the specifics of the pharmaceutical sector.

Particular recognition is deserved for the legal support and professionalism demonstrated by our legal partner in addressing the issue of illegal importation and sale of pharmaceutical products in Ukraine by a foreign company in violation of our intellectual property rights.

We extend our gratitude to partner Vitalii Savchuk for his consistently balanced and objective assessment of our inquiries, his strategic and tactical approach to resolving each task, and his diligent support throughout all processes.

Associate Oleksandr Tsurkan deserves commendation for his meticulous, comprehensive, and professional work on our cases, his balanced approach toward us as clients, his expertise in negotiations, and his skillful coordination of positions with our counterparts.

We can attest to the high level of client focus, professionalism, legal expertise, and reputation of the LA Law Firm. Our many years of collaboration have proven to be highly effective and filled with positive outcomes.

**With best regards,**  
**Chief Executive Director**

**Tetiana PECHAIEVA**
